To add a utility billing account:

Select account type UB - Utility Billing and use the 10 digit account number and access code from your utility bill for the account number and access code fields. You will find your access code a third of the way down on the right hand side of your most recent utility bill. Select your preferred billing options and enter your email address for E-billing preferences. Click save account.

To view your account information place your cursor over the online services tab above the Town logo and select either property tax or utility billing.
